

POSITIVE ACTION AMP GRANTS FUELING GRASSROOTS CHANGE TO DISRUPT DISPARITIES IN HIV CARE

ViiV Healthcare's **Positive Action AMP Grant** initiative funds community-led organizations to incubate and support emerging efforts to disrupt disparities in HIV care. These three-year incubators will serve as resource hubs and think tanks for leaders, networks and projects across HIV, health, housing and wellness. AMP resources will be used to fund and support individuals and organizations leading grassroots HIV outreach with micro-grants, mentorship and other network supports.

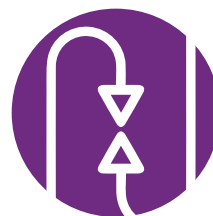

The 13 AMP Grant Leads will be a search light to identify and activate emerging efforts, and will be creating spaces for exchange, coaching and training for rising individuals and organizations. In 2022, these grantees will bring in a new era of responsive leaders and networks that cultivate creative responses to HIV, fueling more than 150 new projects across the country to reach people living with and vulnerable to HIV.

ViiV Healthcare's AMP initiative is a new way to resource grassroots networks and projects that typically can't access funding by supporting community organizations to make grants. These resources will fund emerging linkage to care, advocacy and network-building projects across the United States as they work to expand outreach and engagement in prevention and care.

POSITIVE ACTION

ViiV Healthcare was established to take an innovative approach to the challenge of HIV—and we do. It's who we are. An innovative approach means we go beyond developing new medicines. We seek insights to better understand the unmet needs of people living with HIV. We connect individuals and communities to help drive solutions focused on providing the same standard of care for all people living with HIV. We develop and support community programs that focus on HIV prevention, care and treatment. The voice of the HIV community informs everything we do. As the only company solely focused on HIV, we think differently, act differently and connect differently to improve the lives and outcomes for all people affected by HIV.

TRADEMARKS ARE PROPERTY OF THEIR RESPECTIVE OWNERS.
